## IN THE HOUSE OF REPRESENTATIVES

JUNE 5, 1997

## CONCURRENT RESOLUTION

To recognize the value of continued friendly relations between the United States and the Republic of the Marshall Islands, and for other purposes.

Whereas on November 3, 1986, President Reagan issued Proclamation 5564, implementing a Compact of Free Association between the United States and the newly formed governments of Pacific island areas which had been administered by the United States since 1947 under a United Nations trusteeship;

Whereas the Compact of Free Association was approved by the United States Congress with overwhelming bipartisan support on January 14, 1986, under the terms set forth in the Compact of Free Association Act of 1985 (P.L. 99-239);

Whereas, in addition to providing the multilateral framework for friendly political relations with the new Pacific island nations, the Compact of Free Association established, on a bilateral basis, a long-term military alliance and permanent strategic partnership between the United States and the Republic of the Marshall Islands;

Whereas for 50 years the Marshall Islands has played a unique and indispensable role in maintaining international peace and security through activities of the United States in the Marshall Islands which were essential to the feasibility and ultimate success of the United States-led strategy of nuclear deterrence during the Cold War era, as well as the United States Strategic Defense Initiative which contributed significantly to the end of the nuclear arms race;

Whereas, the Republic of the Marshall Islands includes Bikini Atoll and Enewetak Atoll, which were the nuclear weapons proving grounds for Operation Crossroads from 1946 to 1958, as well as Kwajalein Atoll, which was the site of the mid-Pacific missile testing range for intercontinental ballistic missiles fired from the Vandenberg facility, a vital installation of the United States Army's ballistic missile systems command and a key support facility for the National Aeronautics and Space Administration and other programs critical to the promotion of vital national interests;

Whereas the people of the Marshall Islands and the United States have a close and mutually beneficial relationship which evolved from liberation and military occupation at the end of World War II to United States administration under the United Nations trusteeship from 1947 to 1986

and which is now maintained on a government-to-government basis under the Compact of Free Association;

Whereas this relationship was forged through a process of self-determination and democratization which reflects the common values and cross-cultural respect that the people of the Marshall Islands and the people of the United States have developed since the middle of the last century when American missionaries first came to the Marshall Islands;

Whereas the people of the United States and its allies paid a high price, including great loss of life and injuries in the heroic battles for Kwajalein and Roi-Namur, to liberate the Marshall Islands during World War II and again made sacrifices as a result of the Cold War nuclear arms race;

Whereas the people of the Marshall Islands suffered great injury and hardship due to the exposure of individuals to nuclear test radiation and the radiological contamination of the Marshall Islands;

Whereas, in recognition of the unique role of the Republic of the Marshall Islands in supporting the United States during the Cold War, the 104th Congress provided additional assistance, pursuant to the Compact of Free Association Act of 1985, to meet the special need of the people of the Marshall Islands arising from the nuclear testing program, including funding for radiological monitoring, island rehabilitation, and community resettlement programs;

Whereas within the framework of the settlement of all legal claims under section 177 of the Compact of Free Association Act of 1985, the Congress continues to monitor

and evaluate measures being taken to implement programs authorized under Federal law to promote the recovery, resettlement, health, and safety of individuals and communities affected by the nuclear testing program in the Marshall Islands;

Whereas the special relationship between our nations and our peoples is a bond that has grown strong as a result of our shared history and common struggle and sacrifices in the cause, not of conquest, but to promote international peace and security and secure liberty for future generations; and

Whereas, just as the extraordinary demands of world leadership fell on the United States in this century, among this Nation's allies the Marshall Islands bore an immensely disproportionate share of the burden of the Cold War, and this remote island nation continues to play an important strategic role in the preservation of global peace as well as in the military and scientific programs which promote the United States, the Republic of the Marshall Islands, and the other people of the world: Now, therefore, be it

16 ship between the United States and the Republic of  
17 the Marshall Islands is sustained as mutually agreed  
18 pursuant to their respective constitutional processes.
